PROPOSED TREE PLANTING PROJECTS FOR 2020

1. Tree Care and Organic Farms

Project Description:

IDEAS For Ghana is working on sustaining the livelihoods of students and children and wants to plant more trees such as mangoes, avocados, and tomatoes. Therefore together with the Youth Parliament, IDEAS for Ghana is planning to plant trees in the Ahafo schools and around their environment which will change more lives not only the students even the neighbors. This project will help to fix soil, erosion control and loss of nutrients for land for the garden

Proposal Objectives and Goals

Objective 1: Helping to reduce greenhouse gasses and fight climate change.

- Goal 1A: make climate solution a reality through students action projects
- Goal 1B: limiting emission and sequestering carbon through tree plantings.

Objective 2: Improving the quality of the natural environment

- Goal 3A: Restore the ecosystem by adding more soil
- Goal 3B: Help facilitate erosion control.

Budget Breakdown

Item description	Unit cost in USD	Quantity	Total Cost in USD
Trees	20	200	\$4,000
Organic Fertilizers	2	450 kgs	\$900
Digital Camera	350	1	\$350
Transportation	5	200	\$1000
Lunch and Water	5	200	\$1000
Total:			\$7,250.00

Project Outcomes:

The project outcomes hopefully that while the trees are grown as well,

- Improve air quality for the children around the schools
- Conserved water and preserved soil for the schools garden and environment
- Support wildlife and keep the environment safe
