Project Introduction:

Through IDEAS For Us Rwanda, the Bushoke Community in Rulindo District struggling for food insecurity because they're not how they can benefit from small agriculture through gardens. This area has 19950 population 39% children under 18 years, which are suffering of dietfood. community garden will able to reduce the impact of food deserts in low-income and allow residents especially students access to nutritious food that is necessary to live a healthy life, the gardens will include both native edible and ornamental plant. this project will be taught in schools and in the community by The Hive Kigali Members specialize in the agriculture sector.

Objectives:

To reduce negative environmental impacts by promoting sustainable agriculture, reducing food transportation costs and reducing water runoff human, plants and animals will all benefit from community gardens since they create habitats and improve the environment of Bushoki area. Improve dietary habitats through Education and fruits and vegetable intake.

This project aimed to provide long term food security by supporting local agriculture projects while also improving economic, social and resolve environmental problems. the community and schools will involve in the action of implementing gardens.

Project outcomes: SDG 2: Zero hunger is the focus of this project's outcomes. People will be able to know how to use shortage land by making their food and money in general.
